Please do not approve LPFM to take priority over current FM translator service. I listen to K-LOVE, which is heard on FM translators. This station is very much up-lifting and encouraging for all age groups in my area. In the Yakima area we have 89.9 and in the immediate surrounding areas are 93.3 and 88.7. When I travel across the United States I can hear my station in most everywhere I go. Although there are many local and closer stations, this is the only one I want to listen to. It is a very high priority in my life.
